

Our testimonials for How to photograph newborns DVD

These are the first reviews we have received - after one week, and 100 sales, we are thrilled with the response!

WOW, just WOW! In the 30 minutes I've started watching this you have changed my way of thinking so much and there are still so many chapters I haven't even started looking at yet!

I've been struggling so badly with the 4 hour newborn session it's really turned me off. So for you to make me look forward to my twin session next week I'm truly grateful.

Thanks again hon, thank god we have you is all I can say :)

I've only been dabbling in photography for the past 12 months but really needed some guidance when it came to working with babies. As soon as I got my dvd I put it on and since watching it have been inspired and desperate to get out there and have a go. The advice was great as it showed you step by step how to achieve something rather than just the finished result. Now all I need is an endless supply of sleepy newborns!!

I got my newborn DVD this morning and OMG your amazing Ainslie.....truly. I am loving it and can't wait to start practising. It is so real and simple. I am still hoping to do a mentoring session with you even more so now after watching the DVD's. Thank you so much for putting all this info out there and helping out us aspiring photographers.

I just have to tell you, I got your disk in this morning's mail, and have only watched about 40 minutes and have already found it extremely informative and very useful. Can't wait to get home to watch the rest of the DVD's!!!

You've done a great job. I just wish i'd had something like this sooner.

FANTASTIC!!!
